

Approximate prices for treatment in clinics in Italy

(Currency in euro)

Gynecology

Breast reducing, duplex	2000
Omission of the uterus and / or vagina, urinary incontinence, hysterectomy with front or rear strengthening vagina	6000
Uterus myomatosus, recurrent bleeding, dysmenorrhea, endometriosis, hysterectomy	5000
Gynecology, obstetrics	600
Examination for infertility	3 200
Artificial insemination	2 800
Cesarean section	4 000
Endoscopic removal of the uterus	6 500
Endoscopic removal of uterine fibroids	4 800
Vaginal repair	7 000
Plastic hernia	3 200
Deliveries in Italy	
Vaginal birth	5000
Mammography	400
Urology-treatment of the genitourinary system	
Brachytherapy for prostate cancer	10 000
Adenoma of the prostate	5 000
Removing the kidney	10 000
Fragmentation of kidney stones	3 000
Resection of the prostate	16500
Endoscopic surgery for prostate cancer	15000
Varicocele surgery	2000
Radical surgery for prostate cancer, radical prostatectomy, including removal of the seminal vesicles, spermatic cord and regional lymph nodes	6500
Operations on the urinary organs in Italy	

Acute renal failure from the date of surgery, organ transplantation postmortem	70000
Acute renal failure from the day of the operation, donor organ transplants, including the entire cost of the organization	80000
Ureter, including plastic antireflux surgery	1800
Plastic operations on renal pelvis, with the imposition of renal fistula	1800
Nephrectomy, partial resection of the urethra	1800
Radical surgery for kidney tumors and adrenal glands with removal of regional lymph nodes	2500
Operational imposition of an artificial urinary reservoir	5000
Operation incontinence (reconstructive surgery in women)	1200
Orthopedics	
Arthroscopy of joints (knee, shoulder)	4 000
Hip arthroplasty with rehabilitation	9 000
Endoscopic removal of the meniscus	4 500
Lengthening of limbs	12 000
Elimination of congenital limb malformations	14 000
Operation on the cruciate ligament	4 500
Transplantation of cartilage	10 500
Rehabilitation after knee / hip joints (3 weeks)	3 000
Replacement of the knee and hip joint prosthesis	16500
Plastic cruciate ligament	9500
Surgical treatment of hip dysplasia	17500
Knee joint with rehabilitation	10000 / 14000
Surgery for traumatic rupture of the cruciate ligament	9000 / 10000
Fracture of the hip, indoors, installing a complete prosthesis, postoperative care unit, until wound healing and removal of stitches, before being transferred to the geriatric department	9000
Hip fracture, closed with osteosynthesis	9000
Hip fracture, closed with fracture fixation	9000
Fracture of the ankle, fixed, osteosynthesis	4000
Coxarthrosis, installation of complete endoprosthesis to treat complications	9000
Removal of the implant, such replacement to total endoprosthesis, treatment of post-operative wounds, to treat complications	12000
Starting coxarthrosis, inter or subtrochanteric osteotomy with osteosynthesis	14000
Osteoarthritis, the installation of a total prosthetic knee joint, treatment of post-operative wounds, removing stitches	9000
Osteoarthritis, installation of unicompartmental sliding prosthetic knee joint, treatment of post-operative wounds, to treat complications	10500

Removal of the implant, the replacement of such a total prosthesis of the knee, to wound healing and the treatment of complications	19000
Hallus valgus, Hallus rigidus, arthroplasty or osteotomy surgery	4000
Gap cross ligament plastic implant or transplant	7800
Recovery after osteosynthesis, removing plates and pins on the large tubular bones	3000
Spinal surgery with a simple hernia of intervertebral discs	10000
Spine surgery with stabilization	13000
operation on the spine of high complexity with costly stabilization	18000
Scoliosis: surgery	29000
Scoliosis: intensive conservative treatment method of Katharina Schroth (28 days)	3000
Cardiology	
Surgical closure of atrial septal defect	10 000
Heart Valve Replacement	19 500
Implantation of a pacemaker	10 000
coronary artery bypass surgery	17 000
Examination of coronary vessels	4 500
Coronary angiography	4200
Stenting of coronary vessels	12 000 - 16 500
Electrophysiological study	6500
Radiofrequency ablation (RFA)	12000
Vascular surgery in Italy	
Reconstructive surgery	
Aortic stenosis or occlusion, denture prosthesis of pipe	3500
Aortic stenosis or occlusion, prosthetics Y-shaped prosthesis	4500
Aortic aneurysm, prosthetic graft of pipe	4000
Abdominal aortic aneurysm, prosthetic Y-shaped prosthesis	4500
Visceral one vessel, including renal artery	4000
One pelvic arteries, prosthetics	3000
One pelvic arteries without prosthetics	1500

Femoral artery, without placing the prosthesis	1500
Femoral artery overlay prosthesis	3000
in the popliteal artery, with the imposition of femoral-popliteal shunt without prosthetics	2500
in the popliteal artery, with the imposition of femoral-popliteal shunt prosthesis	4000
on the tibia artery, femoral-overlapping shunt without prosthetics	2500
on the knee artery, femoral-crural overlapping shunt prosthesis	4000
Overlay aksillo-femoral or femoral-femoral prosthesis	4000
Removing Venae perforantes, one leg, including crossectomy	1300
Thrombectomy leg or pelvic veins, possible imposition of arteriovenous fistula	1500
Dilatation of the vessels supplying the limb, percutaneous, including X-ray control during surgery, including treatment for complications up to discharge	5000
Dilation of the coronary vessel, percutaneous including X-ray control during the operation, including control angiography, treatment of complications up to discharge	5000
Oncology and Hematology	
Inpatient Hematology examination in the clinic for further diagnosis	2 500
Bone marrow transplantation	99 000
Stomach cancer: surgery, chemotherapy 1	15 000
esophageal resection: surgery, chemotherapy 1	17 500
Removal of the pancreas	17 500
Cancer of the larynx	10 000
Lung cancer: surgery, chemotherapy 1	16 500
Thyroid cancer: surgery, chemotherapy 1	9 500
Acute leukemia: chemotherapy, bone marrow transplantation, rehabilitation	130 000
Survey about cancer (outpatient)	2500
Operation: Breast Cancer	13000
Rapid recovery of breast tissue on its own	13000
Melanoma: surgery	20000
Lung cancer: surgery	21000

Malignant breast tumor radical operation without placing an expander, with the removal of regional lymph nodes, without irradiation, chemotherapy and muscle plasty (Radical surgery on a mammary gland)	6500
Malignant tumor of the breast conserving surgery with removal of regional lymph nodes, no radiation, chemotherapy and muscle plasticity	5500
Radical operation is the removal of the cervix or uterine body carcinoma, with the removal of the regional lymph nodes	2500
Operation remove ovarian tumors	4000-5000
Transplantation	
Liver transplantation	180000 / 210000
kidney transplantation	160000 / 220000
Bone marrow transplantation	100000 / 120000
Transplantation of the pancreas	25000 / 28000
Heart transplant	250000 / 350000
Neurosurgery in Italy	
Surgical removal of a brain tumor	24000
Removal of brain aneurysm	21000
Embolization of vascular malformations	17500
Removal of m / n herniation in the lumbar spine endoscopically	10000
Endoprosthesis m / n disk	1200
Removal of brain tumors using the "Gamma Knife"	16 000
Operations on digestive organs in Italy	
Cholecystitis, cholecolithiasis, planning, cholecystectomy, open surgery	4000
Cholecystitis, cholecolithiasis, planning, cholecystectomy, laparoscopy	3500
Appendicitis, non-perforated surgery	4000
Appendicitis, non-perforated, laparoscopy	5000
Hernia (inguinal, femoral, umbilical) one-way, the operation (a hernia)	5000
Relapse: Hernia (inguinal, femoral, umbilical) one-way, the operation (a hernia) Operation Hernia white line of a stomach or belly button with the plastic	5000
Hernias, disadvantaged, single-sided. Operation without a bowel resection.	3500
Operation overlay column	5000

The operation on the esophagus with thoracic abdominal access to the thoracic movement of parts of the stomach or intestines	7000
Partial Gastrectomy (B1 or B2)	3000
Total or extended resection of the stomach, including the removal of lymph nodes, spleen	4000
Vagotomy on the stomach, with the imposition of additional drainage, including plastic surgery	2000
Partial resection of the colon, including the imposition of Anus praeter	2500
Total colectomy with or subtotal colectomy iliostoma	3500
Abdominalno perineal extirpation of the rectum with the imposition of the natural anus	3000
Partial liver resection or tumor removal, including cystectomy	3500
Biliodigestive anastomosis with interposition of bowel segment	3000
resection of the tail of the pancreas or subtotal resection of the left side of a drainage	3500
Pancreatoduodenectomy or extirpation of the pancreas	5000
Surgery for epithelial coccygeal passages	1200 / 1400
Bariatric surgery (surgery for obesity) in Italy	
Gastric bypass surgery	8000
Decrease (resection) of the stomach	8000
Gastric banding (outpatient)	6000
Gastric balloon (outpatient)	3000
Operations on the lungs and bronchi in Italy	
Unilateral segment resection, lobectomy, pleuropneumonectomy, with the possible removal of single or multiple lymph nodes	3000
Resection of bronchoplastic lung resection / anastomosis and angioplasty with radical lymphadenectomy	4200
Extended resection of lung intrapericardiac blood supply and / or total resection of the pericardium with plastic and radical lymphadenectomy	7000
Extended resection of the lung with partial resection of Thorax wall or diaphragm, plastic material with a donor radical lymphadenectomy	10000

Resection of the tracheal bifurcation or implantation of the prosthesis	4500
Pleuro-pulmonectomy with one lung, and extra - pericardial blood supply with radical resection of lymph nodes	7000
Extended resection of the sternum, the chest wall, the pleura, the installation of metal or plastic implants	7500
Unilateral removal of lung metastases with lymphadenectomy	5000
Simultaneous bilateral resection of metastases with lymphadenectomy	6000
Decortication in sealing lung tissue or cell carcinoma, mesothelioma empyemectomy	4000
Pleurectomy / removal of pleural tumors, minimally - invasive surgery	3500
Resection of mediastinal tumors surgically	3500
Mediastinal resection of a malignant tumor with prosthetics of large vessels and resection of the lung	8000
Minimally invasive lung resection	6500
Bronchoscopic implantation of tracheal prosthesis	2500
Endocrinology in Italy	
Bilateral subtotal or total resection of the thyroid gland	4000
Bilateral subtotal or total resection of the thyroid gland	5000
Radical surgery for malignant tumors of the thyroid, with the removal of the regional lymph nodes and adjacent organs or relapse remove Struma	5000
Surgical removal of the adrenal gland	1500
Treatment of Graves' disease with radioactive iodine	5500
Diagnosis and others.	
Doppler echocardiography	200
Scintigraphy, search for metastases	500
Standard program Check-up	1200
Basic Check-up Program	800
Depth Express Check-up Program	2 000
Neurological outpatient examination	2000
The diagnostic program "search tumors"	2000
Magnetic resonance imaging (MRI) of the abdomen	500 - 600
CT (computed tomography) head and neck	300 - 400
Coronary angiography	3500 - 5000

Positron emission tomography (PET)	800 - 1000
Computed tomography (CT) of the abdominal cavity	300
Computed tomography (CT) of the chest	300
Primary study of the bronchi (bronchoscopy)	200
Two-photon emission tomography (PET / CT)	1900
Skeletal scintigraphy	400
Mammography	400
MRI of the heart	1200
Gastroscopy with biopsy / without it	1000 / 400
Colonoscopy with biopsy / without it	1200 / 700
