

How to overcome the fear of the flight

a CRPS-Treatment method

Step 1

Our rheumatologists and pain doctors will suggest the most suitable drugs for you to face the journey in the highest level of relaxation possible.

Step 2

During all the phases of your outbound and inbound flights, our health planners will ensure that everything is ok and will suggest what to do in case of discomfort.

Step 3

When you arrive, you will find us at the airport ready to welcome you with a wheelchair if necessary.

Step 4

Before the return flight, our rheumatologists and pain doctors will prescribe the most adapted drugs to face the journey again in total comfort.
